

Download the FTP program from the following link:

<http://www.jmfa.com/Software/WinSCP/winscpsetup.exe>

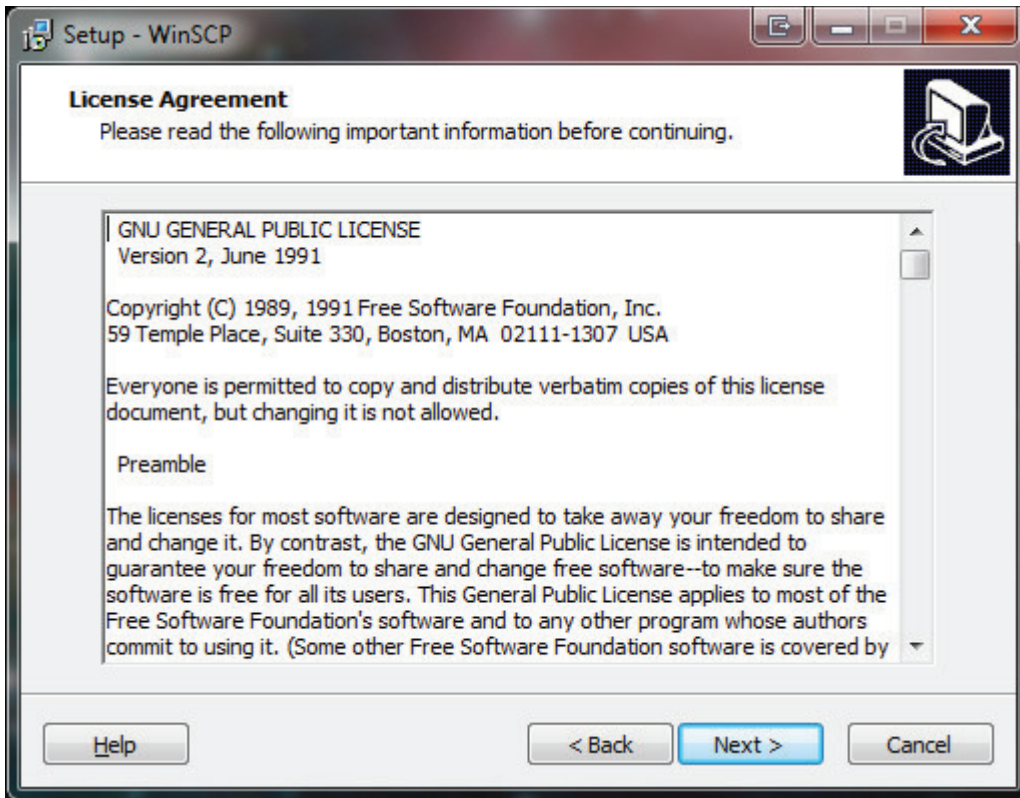

Download and select RUN

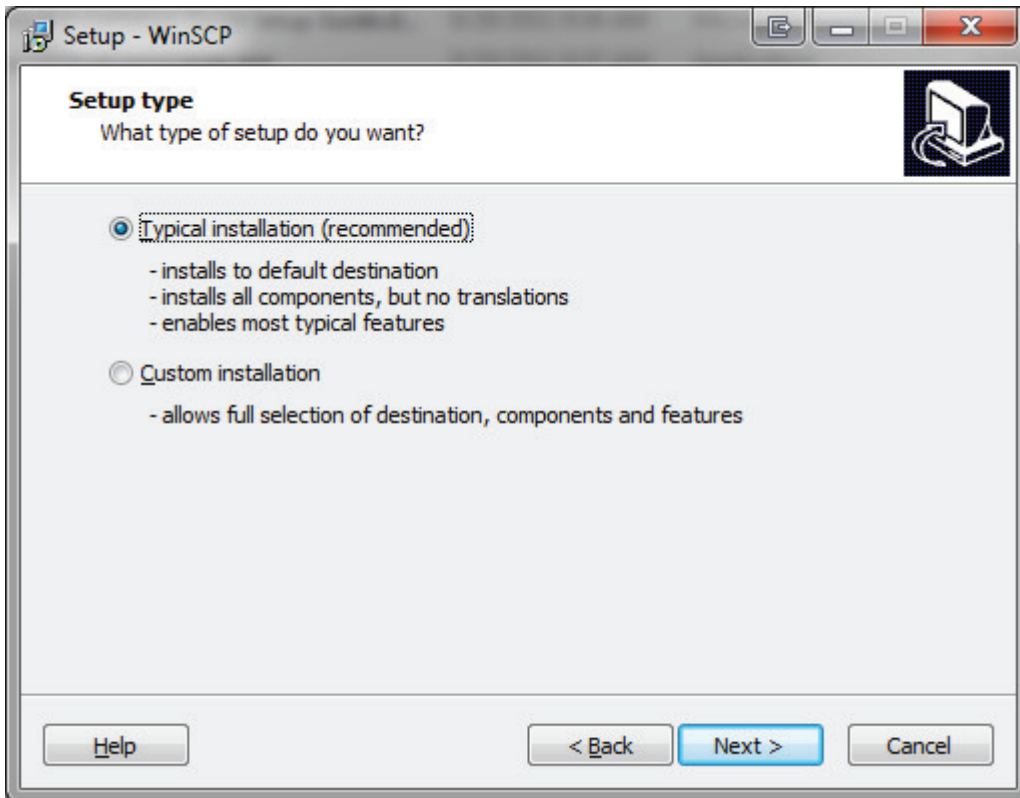

Select Next

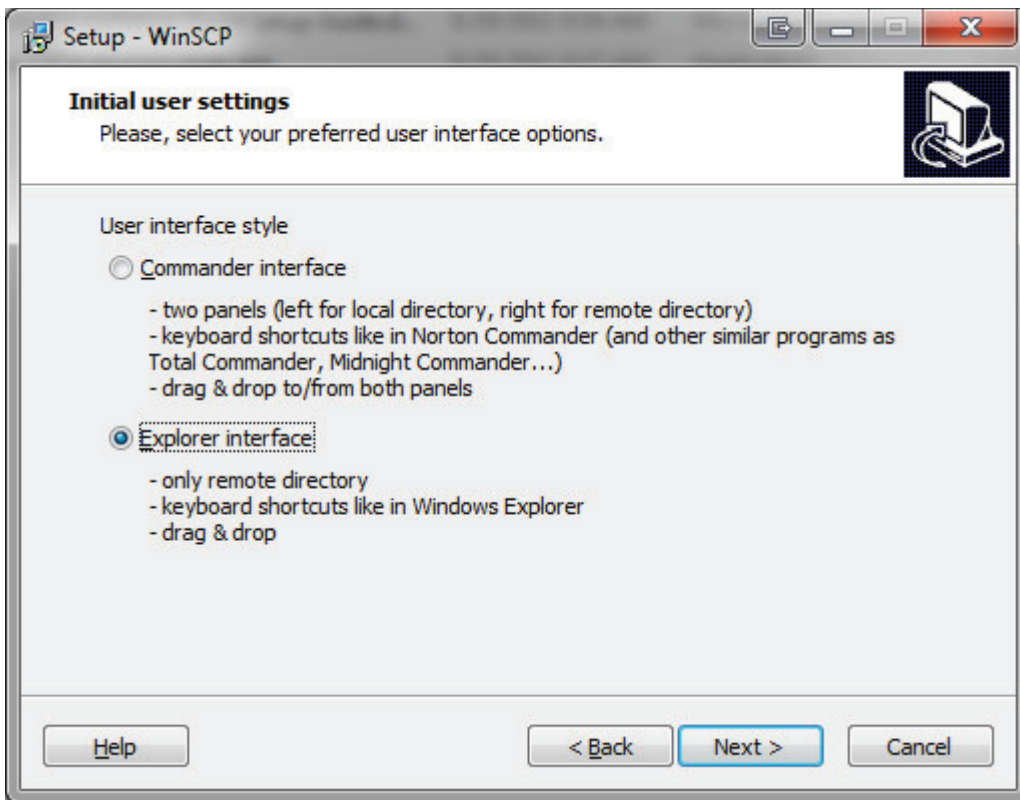

Select Next

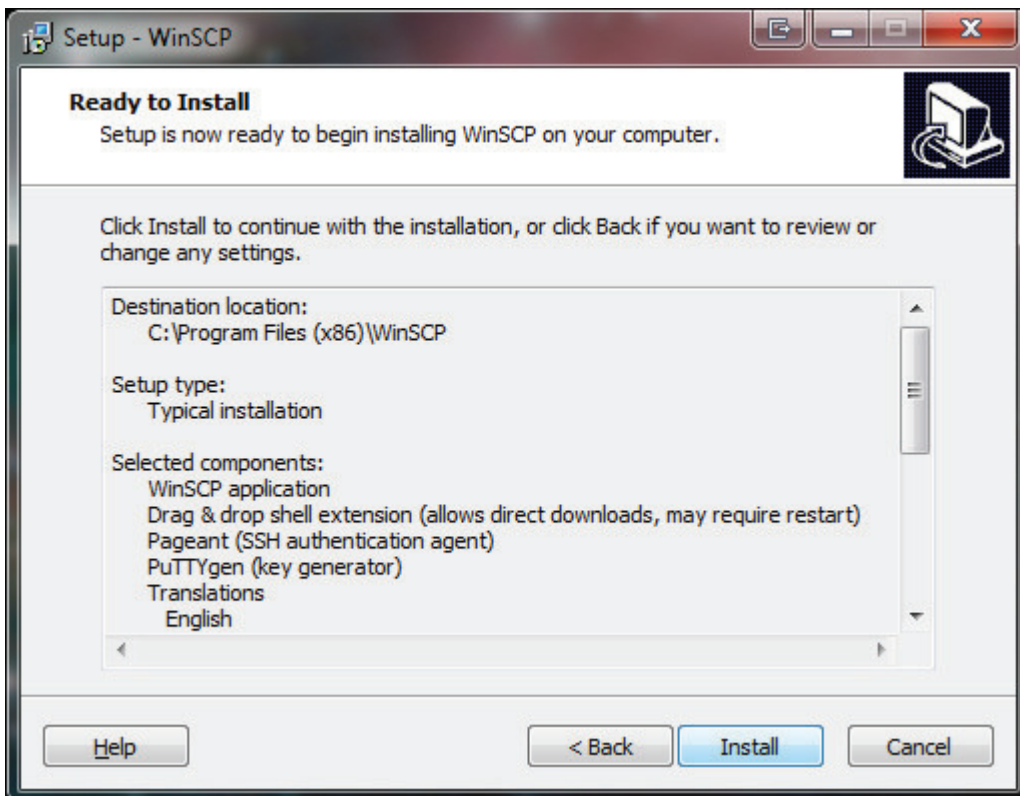

Select Next

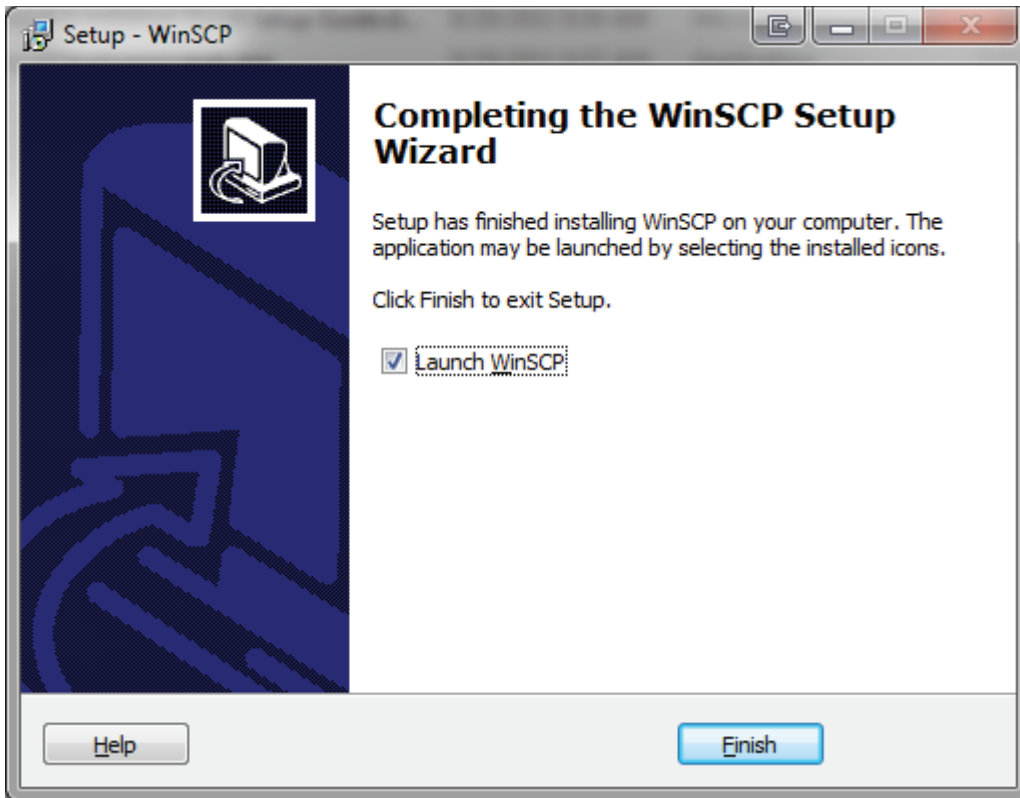

Select Typical installation and then click Next

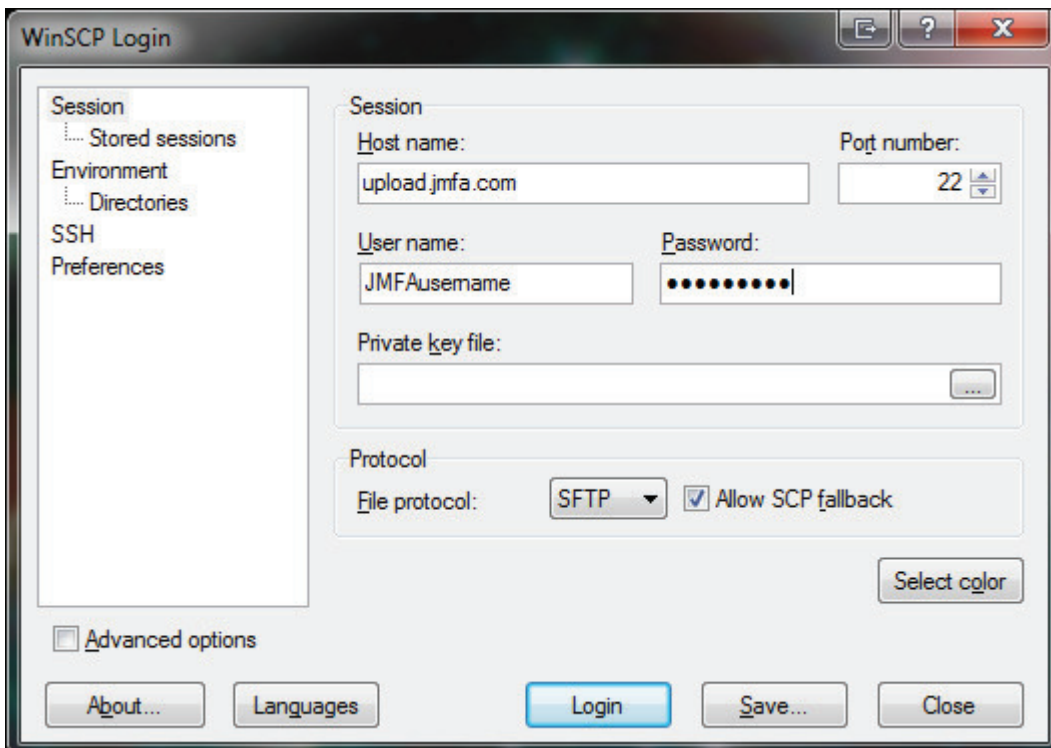

Select Explorer interface (you can change that later if you wish).
Select Next

Click Install

Click Finish, once the program has installed itself WinSCP will launch.

You will need to fill in the info on the page presented to you. Fill in the host name as listed above, and then supply your JMFA username and password provided to you. We do not use Key files so leave that blank and the file protocol should already be set to SFTP and Allow SCP fallback should also be checked.
